Dear Paul,

When I begun this I intended it as a fairly short addition to COUP. As it Topsied, I turned and not think most likely I'll save it until I can do AGENT OSWALD.

You undrstand from what I have already told you that I have not yet read it.

This does not by any means exhaust what I have and believe of the executive sessions. It is merely a few aspects.

It is not necessary to rush through with this for I project doing nothing with it immediately, until I can expand it. If Hal and Jim would like to read it, fine, but I'd like them not to discuss it. Jonn explained, as he always does, why the ms was delayed. He promised to get it and ship it by 2 p.m. today. After they have read it and, if they'd care, made notes, please return it. When you do, please register it for $ 25.00 when you return it.

I am still working on some aspect of this, so if anyone has any suggestions along those lines, I'd appreciate them as they occur.

Thanks,

Best,

Harold Weisberg
